

About Us

BooksByWeight® is a Venture promoted by Butterfly Books®.

BooksByWeight.com, a Brand owned and run by Butterfly Books® is a new online venture selling New Books and good condition Pre-Owned books by weight for nearly a fraction of the Listed price.

BooksByWeight® was a new concept started by us, where for the first time anywhere in the world books were sold by weight. We started this as an offline model around 8 years back and now bring the same concept to our online store (again a first), where every book listed is sold by weight.

Butterfly Books was incorporated in the year 2001, as a venture promoting international book and learning aid titles for children and adults. It is an endeavour that has brought into India a vast array of educational & learning aids for children. The books are imported from the U.K., U.S., Australia, Netherlands and is a vast selection selling at competitive prices.

Butterfly Books® started out with an initial import of 4000 books and today we have several thousand titles.

We have at present half a million books in stock and are constantly adding to this, which are being uploaded gradually, with a goal of putting up a million titles online by the end of next year. Nothing is procured from others and every book listed on the site is available in stock at our various warehouses, which enables us to ship out your order as soon as possible.
